Introduction

I. History:

The Regional Alternative School Program (RAS) has been in existence since 1989 providing educational services for students throughout Dewitt, McLean and Livingston counties. The program emerged from an interest of local school administrators and educators to provide programming for students considered to be at-risk of dropping out of school. The program was initiated to provide students who did not qualify for special educational services and were not experiencing success in the traditional day school program, for a variety of reasons, with an option to continue their education.

The RAS has expanded to include programs at various locations throughout the region to meet the wide-range of educational needs of at-risk students, grades 7 to 12. The program is available to any student residing in Dewitt, McLean and Livingston County. To participate in the Alternative School program, a student must be officially enrolled in his/her Home School District and be referred by the administration of their Home School.

Students who will benefit from the educational structure and environment of RAS may exhibit some but not all of the following characteristics:

- “At-risk” status due to social factors that may affect the student’s ability to attain academic success, such as: frequent mobility, low self-esteem, and various family situations.
- Over age for grade level.
- Students who do not qualify for special educational services but would benefit from an alternative form of educational structure providing an individualized and remedial approach.
- History or current, incompatibility with traditional day school that may be indicated through: truancy, minor discipline problems, and academic failure.
- Unable to attend traditional day school due to employment, parenthood, or other circumstances.

Home Schools are responsible for recommending students who exhibit characteristics that lead the Home School personnel to believe the student may be successful in RAS. Factors that should be considered are: ability level, student support, parent support, discipline history, and willingness to participate in a work co-op program and credit status.

It is the goal of the RAS staff to do what is best for the individual student in cooperation with the student’s Home School. The Principal and Student Services Coordinator will work with the Home Schools when a student’s success at RAS may be questionable.

History of SAVE:

The program is the result of the Safe Schools Law enacted by the State of Illinois in 1996. The program is designed to meet the educational and personal growth needs of students who have been disruptive to the learning environment, or have the potential to be harmful and may pose as a threat to themselves or their peers within the school setting. The program is available to any student residing in Dewitt, McLean and Livingston County. To participate in the SAVE program, a student must be officially enrolled in his/her Home School District and be referred by the administration of their Home School.

Students who will benefit from the educational structure and environment of the SAVE program may exhibit some but not all of the following characteristics:

- The student has been suspended at least twice for a period of 3-10 days for gross misconduct.
- The student has been arrested by police and/or remanded to juvenile or criminal courts for acts related to school activities.
- The student has been involved in repetitive incidents of misconduct considered to be of a serious nature.
- The student has been expelled from their Home School District for the violation of a school policy.
- Home Schools are responsible for recommending students who exhibit characteristics that lead them to believe the student may benefit by enrolling in the SAVE Program. It is the goal of the SAVE Program to do what is best for the individual student in cooperation with the student's Home School. The Principal and Student Services Coordinator will work with the Home Schools when a student's success in the SAVE Program may be questionable.

II. Mission Statement:

We believe that all students are capable of change, the mission of RAS is to provide students with high quality, innovative, and relevant education, in a safe and positive learning environment that allows all students to identify their goals to achieve personal success. This mission is attained through partnering with students, parents/guardians and the community to provide academic, vocational and technical opportunities.

III. Vision Statement: Living the RAS Mission.

IV. Homeschool Referrals:

All students are required to register at their Home School, as they remain legal students of that Home School. The registration includes the following steps:

- Proof of compliance with state health requirements
- Proof of residency and citizenship
- Completion of emergency cards
- Payment of school fees

Only properly registered students will be enrolled at RAS and will have priority in the scheduling process. Students, who have applied but have not completed their Home School's registration requirements, will be placed on a waiting list.

Process for enrollment at RAS:

- The Home School counselor and/or administrator should meet with the student to explain the options available to the student and the benefits of RAS.
- Completion of the Referral Form with parent and student signatures.
- (Refer to copy of the Referral Form in the Appendix)
- The counselor or administrator completes the Referral Form and submits it with transcripts and information pertinent to behavior and attendance.
- The Referral Form is approved by the Home School District's administration and sent to:

Regional Alternative School Principal
 Regional Alternative School
 408 West Washington St.
 Bloomington, Illinois 61701
bkendall@rasblm.org

- The RAS Principal will review the referral, and if it is determined the student is an appropriate candidate for the program, a conference will be scheduled with the student and his/her parents.
- If it is determined after the interview with the parents and student that the program at RAS is an appropriate program to meet the educational needs of the student, an academic schedule will be developed and a copy will be sent to the Home School.
- If the student is not accepted, the Home School will be notified and the Referral Form will be returned.
- Written verification of enrollment date of accepted students will be sent to the Home School District and will be updated on a regular basis throughout the school year.

V. Emergency Contacts:

Parents of all students are required to fill out an emergency card. In emergency situations, the school will call the numbers listed on the card. It is essential that parents update these cards if their address, phone number, or emergency contact person changes.

Student Progress

I. Student Success Plan:

Each student will be required to develop an individual educational plan. The advisory teacher will assist the student in developing his/her plan. The plan must receive the approval of the Coordinator and include the setting of goals in the following areas:

- * Attendance
- * Grades
- * Plan for returning to their home school
- * Behavior Improvement Plan

The completed plan will be utilized throughout the academic year to assess the individual progress of the student. The Coordinator will review the plan at the beginning of each quarter and make appropriate revisions made to accommodate the changing needs of the student.

II. Reporting of Grades:

Grades will be assigned at the conclusion of each semester. Grades will be mailed home to the student's parent/guardian with a copy of the report card sent to the student's Home School.

Progress reports will be distributed to both the student and parent/guardian whenever the instructor feels it is appropriate. Parents/Guardians may request a progress report anytime during the semester.

III. Grading:

Every teacher will maintain an evaluation record for each student using the following guidelines:

1. Each student will be expected to successfully complete a minimum standard of academic work for each week they are enrolled in the program. The minimum expectations for each course are outlined in the curriculum and these expectations will be communicated to the students on a daily basis.
2. The final grade will reflect **both** the student's effort at completing the required assignments and an assessment of the student's academic proficiency on tests, quizzes, exams, class projects and reports.

Letter Grades:

A, B, C, D and F will be assigned each week for the academic work earned by the student.

A =	Outstanding Achievement	90% or above
B =	Above Average Achievement	80% - 89%
C =	Average Achievement	70% - 79%
D =	Below Average Achievement	60% - 69%
F =	Failing	59% or below

NA = Non-attendance will be assigned for a student who did not attend enough class hours during the grading period to warrant any type of a grade. Individual situations may be determined in consult with Coordinator.

Effort Grade:

Students will also receive a numerical grade, (3-0), to reflect their effort on the completion of required assignments and activities.

3 = Maximum effort on assignments. The student remained on task and cooperated with the teacher at all times.

2 = Meets Expectations – Completed the majority of the work and cooperated with the teacher the majority of the time.

1 = Did not meet expectations - did not complete all the required assignments or cooperate with the teacher at an acceptable standard.

0 = Did not complete any work.

The effort scale is a measure of the student’s effort on a 3-point system. A student earns an effort grade in each class ranging from 0 to 3. A student’s effort can raise a letter grade two grades with a 3.0 and one letter grade with a 2.7 or higher. A student with a 2.0 or higher will pass their class. Below a 2.0 a student’s grade is lowered one letter grade. A student with a 0 for effort for an entire week will have their grade lowered one letter grade for each 0 week.

Combined Grade Average:

The combined grade average is the grade reported on the semester report card. It is derived by combining the letter grade and the effort grade. The following scale is used to calculate: 4.0 scale with a 4.0 to 3.5 an A, 3.4 to 2.5 a B, 2.4 to 1.6 a C, 1.5 to a 0.6 a D and below a .6 is a F.

IV. Parental Involvement:

Everyone is responsible for the success of the students of the school. While the school provides the best education we can, it is critical to the success of students that parents assist us in meeting the goals of education set forth by the state, the federal government and ourselves. Communication between home and school helps bind the student, parents, teachers and administration into a partnership working toward a common goal of helping the student succeed. Every parent is required to attend an annual orientation meeting prior to student enrollment. Student Led Conferences will be offered once per semester to allow the people most directly involved with the student to become an active participant in the educational process. The Student Service Coordinator may require parent/guardian meeting throughout the school to help foster students success. Parents and guardians are strongly encouraged to contact the school to schedule a conference whenever there is a question or concern.

The state’s resources on parental involvement can be located at <http://illinoisparents.org/>. The state’s website on parental involvement provides information, training, and support for parents and schools on various websites which may be useful or interesting to parents and students, and provides advice

and information about how to get involved and participate in the educational process. Resources are provided by search, by county, and by categorical query.

V. Student Records:

A school student record is any writing or other recorded information concerning a student and by which a student may be identified individually that is maintained by a school or at its direction or by a school employee, regardless of how or where the information is stored, except for certain records kept in a staff member's sole possession; records maintained by law enforcement officers working in the school; video and other electronic recordings that are created in part for law enforcement, security, or safety reasons or purposes; and electronic recordings made on school buses.

The Family Educational Rights and Privacy Act (FERPA) and the Illinois Student Records Act afford parents/guardians and students over 18 years of age ("eligible students") certain rights with respect to the student's school records. They are:

1. The right to inspect and copy the student's education records within 15 school days of the day the District receives a request for access.

The degree of access a student has to his or her records depends on the student's age. Students less than 18 years of age have the right to inspect and copy only their permanent record. Students 18 years of age or older have access and copy rights to both permanent and temporary records. A parent/guardian or student should submit to the building principal a written request that identifies the record(s) he or she wishes to inspect. The principal will make arrangements for access and notify the parent/guardian or student of the time and place where the records may be inspected. The District charges \$.35 per page for copying but no one will be denied their right to copies of their records for inability to pay this cost.

These rights are denied to any person against whom an order of protection has been entered concerning the student.

2. The right to request removal from the student's academic transcript one or more scores received on college entrance examinations.

A parent/guardian or eligible student may ask the District to remove certain scores of college entrance exams from their student's academic transcript. Students often take college entrance examinations multiple times in order to improve their results. Test publishers provide the results from each examination taken to the student's high school. Schools must include each of these scores on the student's transcript, which may result in academic transcripts having multiple scores from a single college entrance exam. A parent/guardian or eligible student may not want certain scores to be sent to postsecondary institutions to which the student applies. To request the removal of scores on college entrance examinations, the parent/guardian or eligible student must submit a written request stating the name of each college entrance examination that is the subject of the request and the dates of the scores that are to be removed.

3. The right to request the amendment of the student's education records that the parent/guardian or eligible student believes are inaccurate, irrelevant, or improper.

A parent/guardian or eligible student may ask the District to amend a record that is believed to be inaccurate, irrelevant, or improper. Requests should be sent to the building principal and should clearly identify the record the parent/guardian or eligible student wants changed and the specific reason a change is being sought.

If the District decides not to amend the record, the District will notify the parent/guardian or eligible student of the decision and advise him or her of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent/guardian or eligible student when notified of the right to a hearing.

4. The right to permit disclosure of personally identifiable information contained in the student's education records, except to the extent that the FERPA or Illinois School Student Records Act authorizes disclosure without consent.

Disclosure without consent is permitted to school officials with legitimate educational or administrative interests. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or any parent/guardian or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the District discloses education records without consent to officials of another school district in which a student has enrolled or intends to enroll, as well as to any person as specifically required by State or federal law. Before information is released to these individuals, the parents/guardians or eligible student will receive prior written notice of the nature and substance of the information, and an opportunity to inspect, copy, and challenge such records.

Academic grades and references to expulsions or out-of-school suspensions cannot be challenged at the time a student's records are being forwarded to another school to which the student is transferring.

Disclosure is also permitted without consent to: any person for research, statistical reporting or planning, provided that no student or parent/guardian can be identified; any person named in a court order; appropriate persons if the knowledge of such information is necessary to protect the health or safety of the student or other persons; and juvenile authorities when necessary for the discharge of their official duties who request information before adjudication of the student.

5. The right to a copy of any school student record proposed to be destroyed or deleted.

The permanent record is maintained for at least 60 years after the student transfers, graduates, or permanently withdraws. The temporary record is maintained for at least 5 years after the student transfers, graduates, or permanently withdraws. Temporary records that may be of assistance to a student with a disability who graduates or permanently withdraws, may, after 5 years, be transferred to the parent/guardian or to the student, if the student has succeeded to the rights of the parent/guardian. Student temporary records are reviewed every 4 years or upon a student's change in attendance centers, whichever occurs first.

6. The right to prohibit the release of directory information.

Throughout the school year, the District may release directory information regarding students, limited to:

- Name
- Address
- Gender
- Grade level
- Birth date and place

Parent/guardian names, addresses, electronic mail addresses, and telephone numbers
Photographs, videos, or digital images used for informational or news-related purposes (whether by a media outlet or by the school) of a student participating in school or school-sponsored activities, organizations, and athletics that have appeared in school publications, such as yearbooks, newspapers, or sporting or fine arts programs
Academic awards, degrees, and honors
Information in relation to school-sponsored activities, organizations, and athletics
Major field of study
Period of attendance in school

Any parent/guardian or eligible student may prohibit the release of any or all of the above information by delivering a written objection to the building principal within 30 days of the date of this notice.

7. The right to request that military recruiters or institutions of higher learning not be granted access to your student's information without your prior written consent.

Federal law requires a secondary school to grant military recruiters and institutions of higher learning, upon their request, access to secondary school students' names, addresses, and telephone numbers, unless the parent/guardian, or student who is 18 years of age or older, request that the information not be disclosed without prior written consent. If you wish to exercise this option, notify the building principal.

8. The right contained in this statement: No person may condition the granting or withholding of any right, privilege or benefits or make as a condition of employment, credit, or insurance the securing by any individual of any information from a student's temporary record which such individual may obtain through the exercise of any right secured under State law.

9. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA.

The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington DC 20202-4605

VI. Graduation Requirements: All requirements for graduation will be set and approved by the student's Home School.

The RAS office will send grades and documentation of completed course work to the Home School at the conclusion of each semester. The Home School will determine the course work that will be accepted to meet their graduation requirements. When the Home School approves all requirements for graduation, the high school diploma will then be issued by the student's Home School District.

A credit checklist will be utilized for each student that will indicate the courses the student will take to satisfy the graduation requirements at their Home School.

Education of Children with Disabilities:

It is the intent of the district to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act are identified, evaluated and provided with appropriate educational services.

The school provides a free appropriate public education in the least restrictive environment and necessary related services to all children with disabilities enrolled in the school. The term “children with disabilities” means children between ages 3 and the day before their 22nd birthday for whom it is determined that special education services are needed. It is the intent of the school to ensure that students with disabilities are identified, evaluated, and provided with appropriate educational services.

II. Absences:

The State of Illinois considers a student attending school less than 95% of the time to be truant. A successful RAS student will attend classes regularly and on time. Attendance interventions will be put in place to assist students in maintaining a healthy discipline of attending behaviors. Students with excessive absences will be referred for Truancy/Outreach services.

A student required to attend school may be excused for a temporary absence resulting from any cause approved by the RAS Coordinator and/or Principal of the Home School. Excuses may include, but are not limited to, personal illness, death in the family, court appearance or dangerous weather or

road conditions. However, excessive school absences are detrimental to a student's academic success.

III. Reporting of Absences:

Parents/guardians should notify the office between 8:00 AM– 8:30 AM if their student will be absent or tardy. It is the responsibility of the student to make up all work missed due to an absence. In case of a pre-planned absence, students are expected to complete all work before leaving or as soon as possible after their return. In the case of an illness or some other unplanned absence, students should contact their teachers as soon as they return to school to turn in or receive assignments.

IV. Notification procedures:

- Parents/guardians need to contact RAS to notify personnel of their student's absence. All absences – parents/guardians are notified by phone.
- 4th absence in a semester – letter sent with a required parent/guardian conference
- 8th absence in a semester – students who miss more than 8 days of school in a semester will be subject to truancy policy and procedures and/or may be dismissed from the program.

V. Tardy Policy:

Students are expected to be punctual and respectful of other people's time. Tardiness not only impacts on the beginning of the student's day, but also is disruptive to the class and infringes upon the rights of others. At the RAS we understand that life can be filled with unexpected challenges. That is why we allow all students a 30 minute window to enter the school building at the beginning of each shift without being considered tardy. The 30 minute window is defined as 15 minutes prior to the start of each shift and 15 minutes after each shift. (For example Green Wing's first shift starts at 8:15, which means any student who arrives between 8 and 8:30 will be considered on time. Any student entering the building after the 30 minute window will be considered tardy). All tardy students will need to participate on Remediation Friday. Students who have a B or higher grade average can pre apply for a waiver with building coordinators. A tardy that is defined as "**excused**" must be accompanied with a not from a doctor, an employer, or written documentation from a court official.

Excessive tardiness of any kind will require a meeting with the Principal, and may result in the student being dropped from the program.

VI. Release of Students:

The official school day for all students at RAS is established in the daily schedule. Students may not leave school for any reason, except a family emergency. A request to be dismissed early must be confirmed through a parental telephone call indicating the time and the reason. Leaving school grounds without administrative approval will be considered a suspendable offense.

VII. Visitation Policy:

No visitors will be allowed on Regional Alternative School sites unless approved by the Principal or Regional Superintendent of Schools.

Unwanted visitors will be asked to leave the building site immediately. If they do not cooperate, law enforcement authorities will be called and criminal trespassing charges will be filed.

VIII. School Cancellations:

If school is closed or starts late due to severe weather, a power outage or other problems, local radio stations will announce our closings. Only under extreme circumstances will school be closed once students have arrived. Closings will be announced on local radio stations. Listen for "RAS" under school closings. Closings will be updated on our website www.rasblm.org

I hereby acknowledge that I am primarily responsible for administering medication to my child. However, in the event that I am unable to do so or in the event of a medical emergency, I hereby authorize (name of School District) and its employees and agents, on my behalf and stead, to administer or to attempt to administer to my child or to allow my child to self-administer while under the supervision of an employee or agent of the School District, lawfully prescribed medication in the manner described above. I acknowledge that it may be necessary for the administration of medication to my child to be performed by an individual other than a school nurse and I specifically consent to such practices. I further acknowledge and agree that when lawfully prescribed medication is so administered or attempted to be administered, I waive any claims that I might have against the School District, its employees and agents arising out of the administration of said medication. In addition I agree to hold harmless and indemnify the School Districts, its employees and agents, either jointly or severally, from and against any and all claims, damages, causes of action or injuries incurred or resulting from the administration or attempts at administration of said medication.

II. Care of Students with Diabetes:

If your child has diabetes and requires assistance with managing this condition while at school and school functions, a Diabetes Care Plan must be submitted to the school principal. Parents/guardians are responsible for and must:

- a. Inform the school in a timely manner of any change which needs to be made to the Diabetes Care Plan on file with the school for their child.
- b. Inform the school in a timely manner of any changes to their emergency contact numbers or contact numbers of health care providers.
- c. Sign the Diabetes Care Plan.
- d. Grant consent for and authorize designated School District representatives to communicate directly with the health care provider whose instructions are included in the Diabetes Care Plan.

For further information, please contact the Principal.

III. Students with Food Allergies:

State law requires our school district to annually inform parents of students with life-threatening allergies or life-threatening chronic illnesses of the applicable provisions of Section 504 of the Rehabilitation Act of 1973 and other applicable federal statutes, state statutes, federal regulations and state rules.

If your student has a life-threatening allergy or life-threatening chronic illness, please notify the building coordinator at (309) 828-5807.

Federal law protects students from discrimination due to a disability that substantially limits a major life activity. If your student has a qualifying disability, an individualized Section 504 Plan will be developed and implemented to provide the needed supports so that your student can access his or her education as effectively as students without disabilities.

Not all students with life-threatening allergies and life-threatening chronic illnesses may be eligible under Section 504. Our school district also may be able to appropriately meet a student's needs through other means.

IV. Exclusion for Illness:

RAS students will be required to follow all state laws concerning proper immunization and health records. Health records are to be updated with the Home School when necessary. Updated health records must be on file with the Home School District prior to a student being allowed to enroll at RAS.

V. Communicable Diseases:

The school will observe recommendations of the Illinois Department of Public Health regarding communicable diseases.

1. Parents are required to notify the school if they suspect their child has a communicable disease.
2. In certain cases, students with a communicable disease may be excluded from school or sent home from school following notification of the parent or guardian.

3. The school will provide written instructions to the parent and guardian regarding appropriate treatment for the communicable disease.
4. A student excluded because of a communicable disease will be permitted to return to school only when the parent or guardian brings to the school a letter from the student's doctor stating that the student is no longer contagious or at risk of spreading the communicable disease.
5. If a student shows any symptoms of illness, such as a temperature, nausea, diarrhea, sore throat or rashes, the students should not come to school until the seriousness of the conditions has been determined or the symptoms have disappeared. This will help reduce the spread of infections at school.

If a student shows such symptoms while at school, the student will be excluded from the program. The following procedures will be followed:

- The student will be asked to report to the main office.
- Parents will be notified to make arrangements to have the student picked up at school. If the parents cannot be reached, the person designated on the emergency card will be called. It is essential that parents list people on the emergency card who will be able to pick up the students if the parents are not available.

VI. Homebound Instruction:

A student absent from school for more than seven consecutive days because of health related problems or physical impairment should contact his/her Home School regarding home tutoring. The RAS staff will work in cooperation with the Home School in order to maintain the student's progress in all academic classes.

VII. School Breakfast & Lunch Program:

Breakfast is served every school day from 8:00 a.m. to 9:00 a.m. Lunch is served every school day from 11:30 to 1:00 p.m.

Technology

I. Computer/Internet Acceptable Use:

All use of electronic network use must be consistent with the school's goal of promoting educational excellence by facilitating resource sharing, innovation, and communication. These rules do not attempt to state all required or proscribed behavior by users. However, some specific examples are provided. The failure of any user to follow these rules will result in the loss of privileges, disciplinary action, and/or appropriate legal action.

Acceptable Use - Access to the electronic network must be: (a) for the purpose of education or research, and be consistent with the District's educational objectives, or (b) for legitimate business use.

Privileges - The use of the electronic network is a privilege, not a right, and inappropriate use will result in a cancellation of those privileges. The system administrator or Building Principal will make all decisions regarding whether or not a user has violated these procedures and may deny, revoke, or suspend access at any time. His or her decision is final.

Unacceptable Use - The user is responsible for his or her actions and activities involving the network. Some examples of unacceptable uses are:

- a. Using the network for any illegal activity, including violation of copyright or other contracts, or transmitting any material in violation of any State or federal law;

- b. Unauthorized downloading of software, regardless of whether it is copyrighted or de-
virused;
- c. Downloading of copyrighted material for other than personal use;
- d. Using the network for private financial or commercial gain;
- e. Wastefully using resources, such as file space;
- f. Hacking or gaining unauthorized access to files, resources, or entities;
- g. Invading the privacy of individuals, that includes the unauthorized disclosure,
dissemination, and use of information about anyone that is of a personal nature
including a photograph;
- h. Using another user's account or password;
- i. Posting material authored or created by another without his/her consent;
- j. Posting anonymous messages;
- k. Using the network for commercial or private advertising;
- l. Accessing, submitting, posting, publishing, or displaying any defamatory, inaccurate,
abusive, obscene, profane, sexually oriented, threatening, racially offensive, harassing,
or illegal material; and
- m. Using the network while access privileges are suspended or revoked.

Network Etiquette - The user is expected to abide by the generally accepted rules of network etiquette. These include, but are not limited to, the following:

- a. Be polite. Do not become abusive in messages to others.
- b. Use appropriate language. Do not swear, or use vulgarities or any other inappropriate language.
- c. Do not reveal personal information, including the addresses or telephone numbers, of students or colleagues.
- d. Recognize that email is not private. People who operate the system have access to all email. Messages relating to or in support of illegal activities may be reported to the authorities.
- e. Do not use the network in any way that would disrupt its use by other users.
- f. Consider all communications and information accessible via the network to be private property.

No Warranties - The District makes no warranties of any kind, whether expressed or implied, for the service it is providing. The District will not be responsible for any damages the user suffers. This includes loss of data resulting from delays, non-deliveries, missed-deliveries, or service interruptions caused by its negligence or the user's errors or omissions. Use of any information obtained via the Internet is at the user's own risk. The District specifically denies any responsibility for the accuracy or quality of information obtained through its services.

Indemnification - The user agrees to indemnify the School District for any losses, costs, or damages, including reasonable attorney fees, incurred by the District relating to, or arising out of, any violation of these procedures.

Security - Network security is a high priority. If the user can identify a security problem on the Internet, the user must notify the system administrator or Building Principal. Do not demonstrate the problem to other users. Keep your account and password confidential. Do not use another individual's account without written permission from that individual. Attempts to log-on to the Internet as a system administrator will result in cancellation of user privileges. Any user identified as a security risk may be denied access to the network.

Vandalism - Vandalism will result in cancellation of privileges and other disciplinary action. Vandalism is defined as any malicious attempt to harm or destroy data of another user, the Internet,

or any other network. This includes, but is not limited to, the uploading or creation of computer viruses.

Filtering, Monitoring, and Review – RAS, in order to comply with the local, state, and federal laws and standards, filters internet content on systems to which students may have access. This filtering removes access to websites and internet servers that have been deemed to have an inappropriate content not of an educational value. Report any errors found regarding what sites being, or not being filtered, immediately to an administrator or the Technology Department. RAS retains the right to monitor network, email, computer, and telephone use without warning or notice. Information stored, transmitted, or communicated on RAS equipment is not to be considered private. Information gained through monitoring may be used as evidence in disciplinary or legal action, at the administrator's discretion. RAS retains the right to review current and back-up copies of electronic systems, files, data, communications, and email. Reviews are done without notice, and information gained through review may be used as evidence in disciplinary or legal action should a violation of the Student Acceptable Use of Electronic Networks procedure be discovered.

Telephone Charges - The District assumes no responsibility for any unauthorized charges or fees, including telephone charges, long-distance charges, per-minute surcharges, and/or equipment or line costs.

Copyright Web Publishing Rules - Copyright law and District policy prohibit the re-publishing of text or graphics found on the web or on District websites or file servers without explicit written permission.

- a. For each re-publication (on a website or file server) of a graphic or a text file that was produced externally, there must be a notice at the bottom of the page crediting the original producer and noting how and when permission was granted. If possible, the notice should also include the web address of the original source.
- b. Students engaged in producing web pages must provide library media specialists with email or hard copy permissions before the web pages are published. Printed evidence of the status of "public domain" documents must be provided.
- c. The absence of a copyright notice may not be interpreted as permission to copy the materials. Only the copyright owner may provide the permission. The manager of the website displaying the material may not be considered a source of permission.

Use of Email - The District's email system, and its constituent software, hardware, and data files, are owned and controlled by the School District. The School District provides email to aid students as an education tool.

- a. The District reserves the right to access and disclose the contents of any account on its system, without prior notice or permission from the account's user. Unauthorized access by any student to an email account is strictly prohibited.
- b. Each person should use the same degree of care in drafting an email message as would be put into a written memorandum or document. Nothing should be transmitted in an email message that would be inappropriate in a letter or memorandum.
- c. Electronic messages transmitted via the School District's Internet gateway carry with them an identification of the user's Internet *domain*. This domain is a registered name and identifies the author as being with the School District. Great care should be taken, therefore, in the composition of such messages and how such messages might reflect on the name and reputation of the School District. Users will be held personally responsible for the content of any and all email messages transmitted to external recipients.
- d. Any message received from an unknown sender via the Internet should either be immediately deleted or forwarded to the system administrator. Downloading any file

attached to any Internet-based message is prohibited unless the user is certain of that message's authenticity and the nature of the file so transmitted.

- e. Use of the School District's email system constitutes consent to these regulations.
- f. It must be the student's understanding that RAS provided email is not private or protected. When suspicion of a violation of this procedure pertaining to inappropriate material or usage exists, either through discovery as part of a regular maintenance or by staff, student, or parental complaint, RAS reserves the right to review data and files found on email clients and servers during the course of investigation. Any information gained through this review may be used as evidence in disciplinary or legal action should a violation of this procedure exist.

II. Access to Student Social Networking Passwords & Websites:

School authorities may require a student or his or her parent or guardian to provide a password or other related account information in order to gain access to the student's account or profile on a social networking website if school authorities have reasonable cause to believe that a student's account on a social networking website contains evidence that a student has violated a school disciplinary rule or procedure.

Exhibit – Letter to Parents/Guardians Regarding Access to Student Social Networking Passwords and Websites

Re: Access to Student Social Networking Passwords and Websites for Violations of School Rules or Procedures

Dear Parent(s)/Guardian(s):

Under ordinary circumstances, school authorities cannot request or require that a student provide a password or other related account information in order to gain access to the student's account or profile on a social networking website.

School authorities may require a student or his or her parent or guardian to provide a password or other related account information in order to gain access to the student's account or profile on a

social networking website if school authorities have reasonable cause to believe that a student's account on a social networking website contains evidence that a student has violated a school disciplinary rule or procedure.

Social networking website means an Internet-based service that allows students to: (1) construct a public or semi-public profile within a bounded system created by the service; (2) create a list of other users with whom they share a connection within the system; and (3) view and navigate their list of connections and those made by others within the system. Social networking website does not include electronic mail.

Please contact the school if you have any questions.

Sincerely,

Principal

Student Service Coordinator

III. Video & Audio Monitoring Systems

A video and/or audio monitoring system may be in use on school busses and a video monitoring system may be in use in public areas of the school building. These systems have been put in place to protect students, staff, visitors and school property. If a discipline problem is captured on audiotape or videotape, these recordings may be used as the basis for imposing student discipline. If criminal actions are recorded, a copy of the tape may be provided to law enforcement personnel.

Transportation Policies and Procedures

I. Transportation: Transportation to and from the RAS Program will be the responsibility of the individual student or their Home School District. All rules and regulations concerning transportation will be decided by the Home School District. Any questions, concerns or problems with transportation issues should be directed to the administration of your Home School District.

II. Students will not be permitted to go to their vehicles after they arrive at school. The parking lot and all vehicles will be off limits to any student during school hours. The RAS staff will provide any transportation necessary during the school hours.

III. Parking: Students may park their vehicles in the designated parking lot during school hours. Vehicles must be parked between the painted lines, and must be driven under the speed limit of 10 miles per hour while in the lot. Vehicles should be driven safely and must yield to pedestrians. Vehicles parked outside painted lines or designated parking spots may be ticketed or towed at the discretion of the school, at the vehicle owner's expense. Students caught driving recklessly in the parking lot may be subject to disciplinary action.

The school is not responsible for student vehicles, any possessions left in them, or anything attached to the vehicles. **STUDENTS PARK THEIR VEHICLES ON OR NEAR SCHOOL PROPERTY AT THEIR OWN RISK.** Students should be aware their vehicles are not protected in any way while in the parking lot, and items of value should not be left in or near the vehicle while unattended.

Students have no reasonable expectation of privacy in cars parked on school grounds. School lots are regularly searched by contraband dogs, administration, and police officers. Students should be aware that items and spaces on school grounds are subject to search and view by others, and that prohibited items discovered during the course of a search may result in discipline, including, but not limited to, expulsion from school.

Vehicles **MAY NOT** be parked or located in the bus lanes or fire lanes at **ANY TIME**. Bus lanes and fire lanes are clearly marked. Vehicles located in these locations may be ticketed and/or towed by the police.

Video cameras may be active in parking lots and may be used for the purposes of investigation into student misconduct. Discipline for misconduct includes all disciplinary measures in the student discipline code and/or withdrawal of parking privileges.

Student Behavior and Discipline

I. Student Rights and Responsibilities:

All students are entitled to enjoy the rights protected by the Federal and State Constitutions and laws for persons of their age and maturity in a school setting. Students should exercise these rights reasonably and avoid violating the rights of others. Students who violate the rights of others or violate the RAS policies or rules will be subject to disciplinary measure.

II. Student Contract:

Students enrolling in the RAS Program must agree to follow the rules and procedures established by the RAS administration and staff. Students and their parents/guardians are required to sign a **Student Contract of Understanding and Commitment** when accepted into the program. Failure to sign the form or comply with the policies and rules as outlined in the contract and student handbook will jeopardize the enrollment status of the student. (Refer to a copy of the Student Contract of Understanding and Commitment in the Appendix)

III. Classroom Participation and Behavior:

Effective use of class time is critical to student learning. Teachers prepare lessons for each class and it is the shared responsibility of each student to meet the day's objectives for the class. Students who cooperate with the teacher help the class as well as themselves in the learning process. The primary goal of the school is academic achievement and improvement for all students.

Classroom distractions, disruptions and lack of participation will not be tolerated. Refusal to participate in classroom activities, complete academic assignments or involvement in activities which disrupt the academic environment for others will be dealt with harshly and may result in withdrawal from the RAS Program.

IV. School Rules:

Students remain legally registered in their Home School District and are therefore subject to the policies, rules and regulations as outlined in the student handbooks of their Home School District.

Students are expected to assume the responsibility for their conduct in a manner consistent with the respect for all other people and other people's property. Failure to do so will result in disciplinary action by the Site Coordinator, which could result in the student's removal from a class or the program. In situations that violate criminal laws, students may also have charges filed against them with appropriate law enforcement officials.

V. Specific school and classroom rules for the RAS are as follows:

Daily Student Check-In: For the safety and supervision of students, to maintain discipline and order, to provide for the health, safety, and welfare of the students and staff; RAS staff members are authorized to conduct searches of students as they enter the building on a daily basis. The search includes a student's personal effects such as purses, wallets, knapsacks, book bags, personal electronics etc. The search itself must be conducted in a manner that is reasonably related to promoting the overall safety of all students and staff and not excessively intrusive in light of the age and sex of the student. When feasible, the search should be conducted outside the view of others, including students and in the presence of an adult witness.

If a search produces evidence that the student has violated or is violating either the law of the program's policies or rules, such evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities.

VI. Classroom Rules:

1. Follow directions. Students are required to follow directions instructed to them by the staff
2. Keep hands to self. Students are required to keep hands, feet, and objects to themselves at all times.
3. Follow school and classroom routines.
4. Use appropriate communication. Students are required to use appropriate tone, volume, topics and language on campus. Failure to meet this requirement may result in a "done day" or suspension from school.

· **Earned Day:** A student, who receives the designated amount of earned days cumulative without a restart, will move forward in the level system, plus any privileges described in the level system. In order to receive an earned day, the student must meet criteria assigned by staff. For example, arriving at school dressed appropriately and on time, earns at least a 2 effort grade, and a student may not have more than 3 behavior incidents per class.

· **Non-Earned Day:** A non-earned day results in the failure to earn a day that is needed to progress on the Level System. A student receives a non-earned day for the following:

Refusal to complete assigned work, violates school or classroom rules, less than a “2” Effort grade.

· **Restart:** A **Restart** results in the restarting of earned days needed to progress up the level system plus any consequence described in the level system and refusal to follow staff directions.

· **Done Day:** A **Done Day** results in immediate dismissal for the day plus any other consequences described in the level system and possible police involvement. Examples include refusal to change clothing when directed by staff, physical threats, gang anything, refusal to accept a Restart or Non-Earned Day or 2 or more restarted class periods in a day.

· **Suspension:** All suspensions are for at least one day. However, students suspended and their parents/guardians are required to meet with RAS staff prior to the student returning to school. The suspended student will not be allowed to return to school prior to this meeting.

Discipline Code & Procedures

RAS expects all students to conduct themselves in a socially responsible manner. Disciplinary measures are used to maintain a safe and orderly school environment where all students have the opportunity to improve their academic skills. School authorities may inspect and search school property and equipment owned or controlled by the school (such as, lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there.

The building principal may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

Students

School authorities may search a student and/or the student's personal effects in the student's possession (such as, purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the school or district's student rules and policies. When appropriate, evidence may be transferred to law enforcement authorities.

VI. Preventing Bullying, Intimidation, Teen Dating, Violence & Harassment:

4. Through the transmission of information from a computer that is accessed at a non-school-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by the school district or school if bullying causes a substantial disruption to the educational process or orderly operation of a school.

For purposes of this policy, the term bullying includes cyber-bullying (bullying through the use of technology or any electronic communication) and means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student that has or can be reasonably predicted to have the effect of one or more of the following:

Bullying, intimidation, teen dating violence and/or harassment may take various forms, including without limitation: threats, stalking, physical violence, sexual harassment, sexual violence, theft, public humiliation, destruction of property, or retaliation for asserting or alleging an act of bullying. For purposes of this policy, the term bullying includes harassment, intimidation, teen dating violence, retaliation, and school violence.

A student who is being bullied is encouraged to immediately report it orally or in writing to the District Complaint Manager, Nondiscrimination Coordinator or any staff member with whom the student is comfortable speaking. Anyone who has information about actual or threatened bullying is encouraged to report it to the District Complaint Manager, Nondiscrimination Coordinator or any staff member. The school will not punish anyone because he or she made a complaint or report, supplied information, or otherwise participated in an investigation or proceeding, provided the individual did not make a knowingly false accusation or provide knowingly false information. The school will protect students against retaliation for reporting incidents of bullying, intimidation, teen dating violence or

harassment, and will take disciplinary action against any student who participates in such conduct. Please contact your building coordinator immediately if any incident of concern has occurred.

- Warnings and advisement to assist the student to discontinue the undesirable behavior.
- Student placed on a behavior management plan that outlines consequences for his/her behavior.
- A student may be externally suspended or removed from the program for extreme behavior (even if the first offense), or if the student presents a danger to himself/herself or others, or demonstrates unwillingness or inability to abide by school rules after the above consequences have been tried. The term of each suspension is at the discretion of the administration.

IV. Procedural "Due Process" will be afforded to all students subject to discipline and shall include the following procedures:

- The opportunity to respond to the charges in front of a qualified teacher or administrator of the school.
- Notification of all evidence.
- Right to a formal hearing with the Director of the Program.
- Right to know the outcome of the hearing within five school days.

V. When a student is externally suspended or dismissed from the program, the following procedures will be followed:

- In non-emergency situations, immediately prior to the suspension, the school administrator will advise the student of the charges and explain the evidence supporting those charges. The student will be provided the opportunity to tell his/her side of the story. This will be followed by a letter to the parents as soon as possible.
- The parent/guardian will be immediately notified by phone that the student is being suspended and requested to come to school to take the student home.

- In emergencies, if the conduct of the student is severely disruptive, the student may be immediately removed from the building by the police if necessary and formal charges may follow.
- The parent/guardian and the student will be presented the reasons for the suspension and be given a conference date as soon as possible. The conference may occur on the same day as the suspension, but there must be a conference held with the parent/guardian, student and school officials prior to reinstatement to school.
- The school administrator will clearly state the number of days the student will be suspended. A written follow-up will be sent to the parents/guardians summarizing the reasons for the suspension, the conference date and the right to request a formal hearing of appeal with a hearing officer, usually the Program Director.
- A written request for a formal hearing of appeal must be submitted to the Director within five school days following the initial suspension. A formal hearing with a hearing officer, usually the Director of the program, will be scheduled within five school days after receiving the written request. The parent/guardian will receive a written decision from the hearing officer within five school days following the formal hearing.
- Copies of any written correspondence or information concerning suspensions will be forwarded to the student's Home School District.

Discipline of Students with Disabilities:

The school and district will comply with the Individuals with Disabilities Education Act (IDEA) and the Illinois State Board of Education's *Special Education* rules when disciplining students with disabilities. Behavioral interventions will be used with students with disabilities to promote and strengthen desirable behaviors and reduce identified inappropriate behaviors. No special education student shall be expelled if the student's particular act of gross disobedience or misconduct is a manifestation of his or her disability as determined through a manifestation hearing. Any special education student whose gross disobedience or misconduct is not a manifestation of his or her disability may be expelled pursuant to the expulsion procedures.

Student Privacy Protections

Surveys by Third Parties:

Before a school official or staff member administers or distributes a survey or evaluation created by a third party to a student, the student's parent/guardian may inspect the survey or evaluation, upon their request and within a reasonable time of their request.
